

11b Swedish: Technique Demo and Practice – Posterior and Anterior Foot

Lesson Plan

Minutes	Activity
---------	----------

10	Transition
----	-------------------

- Students partner up into groups of 2, but 3 students may need to work together if the number of students attending class is odd-numbered. In this case only 2 students will receive massage, but all 3 get full participation credit. Ensure that students partner equally their classmates.
- Partners set up a massage table, adjust table height, dress the table, get a chair, and store their stuff underneath the tables so that it does not impede their ability to do massage. Positioning of massage tables should allow everyone to work comfortably from all sides of the table without interfering with adjacent students or walls.

10	Break Announce the return time and write it on the board.

5	Attendance and Reminders Display the reminders slide.

10	Receivers Undressing and Givers Stretching
----	---

- Immediately after break, each giver secures the drape while their receiver gets on the table and gets undressed.
- Next the instructor spends the remaining time leading students through the stretches found in the Internship section of the packet.

60	First Trade
----	--------------------

- The instructor speaks briefly about the hands-on learning for this class so that it can be placed in the context of the bigger picture.
- The rest of the time alternates between the instructor demonstrating "bite-size" portions of the routine immediately followed by the students practicing these demonstrated techniques.
- The amount of technique shown for each mini-demo is up to the instructor, but should represent a short but cohesive snippet of the overall routine. As the students practice the new techniques, the instructor and assistant circulate around the classroom providing corrections, praise, and touch comparisons as needed or as requested.

10	Reset the tables for the next session

Thoughts, Advice, or Warnings

- Be clear and insistent from the beginning about housekeeping behavior so that future classes can be focused on the new material instead of being distracted by how to properly setup, position, or clean a table.

- Equal timing for the massage trades is as essential as ending class on time.
- Don't do a demo before the trades begin. Instead demo small chunks of the routine during the trades so that students can immediately put into practice the mini-demo.
